

# **HYRULIAN FOOTBALL LEAGUE**

## **OVERVIEW**

Hyrulian Football League is an 8 week, asynchronous, Tuesday to Tuesday battle royale with base flags of consternation. The flags will change weekly based upon the NFL results of the week. All 32 NFL teams have been randomly sorted into 16 groups of 2. Each of the 16 groups has been randomly assigned a flag. That flag will be set based on 0 losses, 1 loss, or 2 losses within each group. Your commissioner this season is GrandpaSzabo.

## **SCHEDULE**

The flags for week 1 will be posted the evening of Tuesday, October 7. The flags for subsequent weeks will be posted on Tuesday evenings. The weekly deadline for submission is 11:59pm EST on Tuesdays. If you need an extension, please contact GrandpaSzabo as early as possible in the week. One reminder ping will go out early on Tuesday evening. If you have not requested an extension by this ping and have not submitted by the deadline, you will receive a zero for the week. If you are attending SGL, please let GrandpaSzabo know when that week arrives. All SGL attendees will receive an extension that week. This pattern will continue through the completion of the BR at 11:59pm EST on Tuesday, December 2.

## **SCORING AND TIEBREAKERS**

Mario Kart scoring will be used for this BR. Due to life, work, emergencies, and the universe being a general doink at times, the lowest score of the BR for each participant will be dropped.

The link for submitting times is <https://forms.gle/Lk94gBCoSoCCGkPV9>

If there are any ties in the final standings, tiebreakers will be done in this order:

- Average placement
- Head to head record
- Total time across all submissions. DNFs will count as 3:00:00.

If one or more players are still tied after the tiebreakers are applied, the placement will be shared and the standings will be adjusted.

## **FLAGS AND GROUPS**

The base flags are consternation : ItRtYLS2xToBiCHEvfcY6eRlcxG!VfM

Flags will change weekly based upon the results of the NFL games that occur that week. Each team has been randomly sorted into groups of two. A flag has been assigned to each group. The flag will be set based on 0 losses, 1 loss, or 2 losses within each group in order within the parentheses below. Ties and byes only impact this in that it reduces the number of possible losses for the affected group in a given week. The NFL results and the resulting flags of each group will be posted at the same time the new weekly seed is posted.

“Maybe” means that a flag could be set to yes or no but you will have to discover it during the run. “Random” means there is a chance for it to be any of the potential settings for the flag.

## **ADDITIONAL RULES**

Standard Z1R racing rules apply:

- Streaming or locally recording and saving your VOD/uploading a video is required.
- Be sure to put SPOILER in your title if you stream your run.
- Timing starts when the player is able to assume control of the hero.
- Timing ends when control is lost after saving the kidnapped.

- If there are any finishes within 5 seconds of each other, a frame count will be done to determine proper placement.
- Deathwarp (e.g. Up+A on controller 2) is allowed.
- Custom sprites are allowed if they don't alter hitboxes or offer a competitive advantage.
- Console or approved emulators only.
- Macros are not permitted.

Light-hearted banter between fans of rival NFL teams is fine as long as it stays friendly. As with all events that occur via the Z1R discord, the Z1R Community Rules, Expectations, and Mutual Respect Agreement apply. Thanks and let's have a great BR!
