

Bear Market Battle Royale

BR Organizer

Big__Slammu (Special Thanks to PDXRex & Claude for IPS patches)

The Gimmick

Hyrule has formed it's first ever functioning stock market! All runners will be given a 100 rupee salary at the beginning of every week with the option to buy up to 4 items from the stock market. Any unspent rupees will be saved, up to a maximum carrying capacity of 255. Prices will change week by week based on the demand for each item. Save up your rupees and outfit yourself with the best kit to take down the seed as fast as possible!

How do we actually do it?

Seeds will be generated as normal through the Z1 Randomizer app, using the flagset below. Seed numbers will be the winning lottery numbers from the Sunday prior to the roll date (available here: <https://www.arizonalottery.com/draw-games/triple-twist/>). Seed number and flags will be posted and pinned weekly in the BR discord channel. Prices for items as well as the start screen for that week will be posted there as well. Prices will remain steady for that week's BR but will go up/down week over week. Once you've decided what items you're going to "buy" that week, you will apply the corresponding IPS patches (see IPS patch guide) prior to running the seed. Starting the seed to confirm that the IPS patches applied properly is allowed and encouraged, please restart the game and begin timing as normal for your run.

Items available to be purchased (starting prices TBD):

- Power Bracelet
- Magical Shield
- Bait
- Recorder
- Book
- Magic Boomerang
- Bow
- Blue Candle
- Red Candle
- Wand
- Raft
- Blue Ring
- Red Ring
- Magic Key
- Ladder
- Wood Sword
- White Sword

What is Expected of You, the Participant

- Be in good standing with the Z1 Randomizer community.
- Have a Discord account in good standing, and be a member of the Zelda 1 Randomizer Discord server.
- Play to the best of your ability.
- Be able to run 1 seed a week with a weekly deadline of Monday 11pm ET
- Respect your opponents and have fun!
- Understand how google forms and spreadsheets work.
- Watch the IPS patch guide and run a test IPS patch prior to seed generation.

Registration

Register by emoting in the BR channel or posting in the Bear Market BR channel. Registration open until the close of the first seed

Format

8 weeks of async races; each seed will be posted Monday by 11pm ET, seeds due by the following monday at 11pm ET

Scoring

Points awarded based on your finish position each week. Points are scored based on the number of opponents beaten with a 4 point bonus for 1st place and a 2 point bonus for 2nd place. Any runners that DNF a week will receive 0 points but will still count in the total number of racers for scoring. Any drops from the BR will be treated as DNFs for the remainder of the weeks.

Example Scoring for an 8 person Field: (1st - 11, 2nd - 8, 3rd - 5, 4th - 4, 5th - 3, 6th - 2, 7th - 1, 8th - 0)

Ties

1. The time submitted in the Google Form will be considered the official time.
2. Any racers that finish as a tie on will be retimed via frame count. Any result within 1 second will be considered a tie and runners will split the points. Any racers finishing within 2 seconds will be retimed via framecount as well.

Anticipated Calendar

Week 1 Deadline: 4/6

Week 8 Deadline: 5/25

Because of the variability and dependency on other people for your options in this BR, running seeds early or late is not an option.

Restreaming

Some weeks may have a restream or a summary stream at the end to show off the results. Runners may proactively opt-out of any restream content by sending Big__Slammu a DM or posting in the BR channel.

Sprites

No limitations on sprites in this BR.

Flags

Flags will remain the same through all 8 weeks. The flagset will be
143oNtDD4RQMHnICDi4elapouThjscPyT1pJ0f

Mixed Quest - 1st Overworld

Shapes Dungeons

Additional Race Procedures and Rules

1. Players may use trackers such as Z-Tracker and ZHelper. Auto-tracking of any kind is not allowed.
Z-Tracker voice settings must be disabled.
2. All runs must be locally recorded and may be streamed on Twitch. Additionally, all runners must have the VOD or link of the stream available for potential review by the organizers for at least 1 week after the race.
3. Players may not be in any channel or any chat (twitch, discord etc.) during a race.
4. Watching other competitors streams or any restream before racing your seed is not allowed and will result in an investigation.
5. Runners caught or who are suspected of cheating will be automatically forfeited from further participation in the BR. All decisions on cheating will be made by the organizers and will be final.
6. The tournament will use the latest stable version of the Zelda 1 Randomizer for all races. Runners are responsible for watching the discord for update announcements.
7. In the event that a new stable version is released, all subsequent races will move to the new version.
8. Any disputes will be handled by Big__Slammu and all decisions will be final.
9. The following specific tricks are **disallowed** for this tournament:
 - a. Raft skip - circumventing the raft requirement to access the raft spots on the overworld
 - b. Using a glitched white sword
 - i. If you unintentionally obtain a white sword, do not use it. Using the sword will disqualify your run.
 - ii. If you have a save, you can retry.

Hardware Rules

- Runners may use flashcart, approved emulator, Mister Pi, SNES/NES classic or a docked Analogue Pocket.
 - Approved emulators include: [Mesen](#), [puNES](#), [Nintendulator](#), [Bizhawk](#) (Neshawk core), [higan](#), [FCEU\(X/mm\)](#)
 - Banned emulators include: NESTicle
 - Any other emulator, contact Big__Slammu.
- Turbo controllers and functionality are both banned.
- Emulator specific functionality is banned (e.g. save states, fast forward, etc).
- Pressing Up+Down or Left+Right simultaneously is banned.
- Only one action can be mapped to any given button.
- Only one button can be mapped to any given action.
